## EMPLOYMENT HISTORY

### Freelance Design [Jacksonville, FL]

#### Various Clients *Fall 2005 - Present*

I have provided services incorporating both graphic design and photography during the last four years. Services have included: logo packages, posters, flyers, tee shirts, and event photography. Clients have included: The Break Surf Shop, Grippers Surf Wax, Lake Crank Towing Devices, DoesitMatter, Riverside Hairstyling Academy, and Jacksonville Exteriors.

### Clary & Associates [Jacksonville, FL]

#### Field Technician/Land Surveyor *Spring 2008 - Present*

I am currently employed as a land surveyor in the Jacksonville area. I have been fortunate to spend the last year in the outdoors, following my fathers footsteps, gathering data for maps. I have sharpened my skills in technical GPS applications and traditional orientation techniques while observing the fragile wildlife of Florida's wetlands.

### The Kurtis Group [Jacksonville, FL]

#### Junior Graphic Designer *Summer 2007- Spring 2008*

I was extremely blessed with the opportunity to work with this talented group of artists. As a junior designer, I applied the skills I learned in school to various web and print related advertising projects. These projects ranged from file prep for all print jobs, to conceptual layout and design of ads and multi-page brochures. Also used CSS to create functional standard-compliant websites.

### Sea Graffix Corporation [Jacksonville, FL]

#### Production Artist *Fall 2005 - Summer 2007*

During this time, I was fortunate to gain experience in the sign industry. I used a vinyl plotter to print and weed my designs, assembled the signs by hand and helped with the on-site installations. I also designed stickers, tee shirts, and various promotional items including flyers and brochures for the business and its clients.

### Aquatics Camp [Orange Park, FL]

#### Rock Climbing Instructor *Summer of 2002 & 2004*

I was the director of land activities at a Boy Scout summer camp. Responsibilities included: maintaining the artificial rock climbing wall and equipment, while creating a stable environment for the students to learn the skills required to successfully and safely participate in climbing. Worked with kids from ages eleven to sixteen years old.
